The purpose of the component capability list is to supplement our repair station Air Agency Certification and specifically list the components that this repair station is authorized to maintain, inspect and repair.

This document will be located at the station of the individuals or location assigned. This issue and all revisions to this document become effective upon approval of ACI and the FAA.

4.0.1

This Capability List has been prepared in accordance with the current Federal Aviation Regulations (FARs) and the policies of ACI.

This Capability List contains the list of components which ACI is approved to perform maintenance.

Revision: F

Capability List Manual

5.0 Control of Capability List

Each copy of the Capability List shall have a control number on the cover page. All assigned holders on the distribution list shall be given a controlled copy of this Capability List.

The Quality Manger shall be responsible for the administration and issue of the revisions for this Capability List.

5.0.1 Amendments to the Capability List

All amendments shall be approved by ACI. Upon approval by the FAA the new revision shall take the place of the old. The complete manual shall be revised and replaced at each revision. The Capability List will be submitted to the FAA with any changes monthly if there was any changes made, if no changes are made the current revision shall be maintained.

5.0.2 Self Evaluation

A self evaluation shall be completed on new items that currently not on the Capability List. This evaluation shall be recorded on a Self Evaluation Form and routed to the FAA for the review and acceptance.
